

**Name of website 1:** Aliexpress

**URL:** <https://es.aliexpress.com/>

**Name of website 2:** Ebay

**URL:** <https://www.ebay.es/>

**Pages revised:** main page in both of them (the same url that above).

**Review date:** 22/10/2020

**Natural language:** Spanish was the language that both of the pages have on my navigator.

**Reviewer:** Juan de Dios Cáceres

**Review process of Aliexpress:**

| What                    | Tool                     | Result   | WCAG2.1 |
|-------------------------|--------------------------|--|---------|
| Color contrast          | Manual                   | Yes (red-orange and orange with white).  | AA      |
| Page title              | Manual                   | Yes.   | A       |
| Image text alternatives | Development tool         | No. The attribute alt wasn't there or has no value.  | AA      |
| Resize text             | Development tool         | No. I check on the responsive mode and it didn't change.   | AA      |
| Forms, labels and error | Development tool         | Yes. In the main page there weren't any forms, so I checked in the login page, and seeing the code it was an aria-label attribute. | A       |
| Basic structure check   | Developer toolbar plugin | No, disabling the images and the css, it can be seen a bad structure, overlapping some inputs on the text.                         | A       |
| Keyboard access         | Manual                   | Yes, but as the focus isn't visible, is very difficult to use only the   | A       |

|              |        |                               |    |
|--------------|--------|-------------------------------|----|
|              |        | keyboard to move in the page. |    |
| Visual focus | Manual | No.                           | AA |

**Review process of Ebay:**

| <b>What</b>             | <b>Tool</b>              | <b>Result</b>   | <b>WCAG2.1</b> |
|-------------------------|--------------------------|---|----------------|
| Color contrast          | Manual                   | Yes. A dark background with a light letter's color or viceversa.  | AA             |
| Page title              | Manual                   | Yes.  | A              |
| Image text alternatives | Development tool         | Yes, it appears the alt attribute.  | AA             |
| Resize text             | Development tool         | No, adjusting with the responsive view, there is no change on the text size.                                  | AA             |
| Forms, labels and error | Development tool         | Yes. On the main page there aren't forms so I checked on the login page, where there are labels on the forms. | A              |
| Basic structure check   | Developer toolbar plugin | Yes, disabling the images and the css, it can be seen a table structure and a organised content.              | A              |
| Keyboard access         | Manual                   | Yes, it can be used the tabulator.  | A              |
| Visual focus            | Manual                   | Yes, with a black line border.  | AA             |
